## **GRAFFITI ABATEMENT**

**Report graffiti to  
Ask Stockton Website  
or  
Graffiti Hotline  
(209)937-8040**

# **GRAFFITI ABATEMENT S.M.C Section 8.24**

The City of Stockton is taking action to wipe out graffiti. In January 2007, the City adopted a more stringent graffiti ordinance in an effort to reduce graffiti throughout the city. The ordinance includes additional penalties and requires property owners to assist with removing and preventing graffiti on private property.

The City is dedicated to improving and expediting graffiti clean-up by working with other local agencies, including San Joaquin County and Caltrans. The Police Department, Neighborhood Services, and community volunteers are working together to manage a first-rate Graffiti Abatement Program in Stockton. The City is keeping neighborhoods clean and attractive through various activities including graffiti removal programs, educational outreach, community involvement, and code enforcement activities.

**ASK STOCKTON**—You can utilize the City of Stockton website to report graffiti, track a service request, ask a question, or make a comment.

To report tagging in progress call 911.

**GRAFFITI ABATEMENT**—The City utilizes four specially designed graffiti abatement trailers staffed by City personnel to abate graffiti. Any color can be matched to ensure professional results in painting out graffiti on public and private property. The trailers are outfitted with pressure washers to remove graffiti from stone, brick, and sidewalk.

**GRAFFITI BUSTERS**—If you are interested in adopting your neighborhood to paint out graffiti or keep it clean, call the Neighborhood Services Section at (209) 937-8813.

**GRAFFITI HOTLINE**—The Graffiti Hotline 937-8040 is available 24 hours a day, 7 days a week and is the main resource for reporting graffiti vandalism, locations, submitting painting requests, and providing suspect information. This is a live telephone access line from 8 a.m. to 5 p.m. and on weekends. Calls received on the Hotline will be routed to the abatement agency responsible for cleanup of the affected locations. The Hotline network is utilized not only by City departments, but also by Utilities, County departments, community agencies, the post office, cable and phone companies.

Calls received on the Hotline concerning suspect information are turned over to the Special Investigations Section of the Police Department for investigation.
