

REPORT THE GUNSHOTS

If you hear gunshots:

- Immediately call the Stockton Police Department (209) 937-8377 and advise them where you think the gunshots came from (i.e. south of my house). Stay away from the windows if the shooting continues.
- Describe it to the dispatcher and anything else you remember about the gunshots.
- The more calls Stockton Police Department receives, the better able we are to pinpoint a location, particularly if it came from inside a home or apartment.
- If you find or see any casings after the call, point them out to officers if they have yet to find them. If you find any casings the next day or days, do not touch them and call SPD at (209) 937-8377.

Please contact your Community Service Officer with your questions or suggestions.
